

Hi volunteers, thank you for signup to care for our garden.

Your work should take 1-2 hours 1-2 x the week that you are covering. If you run into any problems or questions regarding the garden, please call me at 330 294 7334 or email me [ngmlpt@aol.com](mailto:ngmlpt@aol.com).

The work should include picking up trash around the garden and along the fence. Deadhead any flowers and feel free to cut any flowers or bushes that need trimming. We have geraniums that have been planted in the garden and planter and the plants in the planter may need watered more often than what is in the garden. What you may want to have with you is small pruning shears, gloves, a kneeling pad, a trash bag, and a watering can. Church has hired a company for mowing the lawn and timer set watering with soaker hoses which will run on a preset schedule.

This schedule is posted on the website as well. Thanks for your help this summer. Nancy McEwen
